

Magnitude SourceConnect

Accelerate Master Data Integration for Central Finance

SAP Central Finance Data Harmonization by Magnitude for SAP S/4HANA.

Delivering value quickly in a SAP S/4HANA Central Finance deployment requires a practical focus on master data. By leveraging automation and intelligent technologies, you can accelerate the master data phase of your project, and deliver higher value within Central Finance to your stakeholders. SAP Central Finance Data Harmonization by Magnitude for SAP S/4HANA accelerates the consolidation, initial load, and ongoing interface of master data for both SAP & non-SAP systems into SAP Central Finance.

By Adding the SAP Central Finance Data Harmonization by Magnitude Solution to Central Finance Deployments, Customers Can Expect To:

- Implement Central Finance faster and cheaper
- Achieve better quality reporting from Central Finance
- Separate the Central Finance project from a data governance project
- Accelerate future data governance initiatives

Integrate Master Data into SAP Central Finance from Both SAP and Non-SAP Source Systems

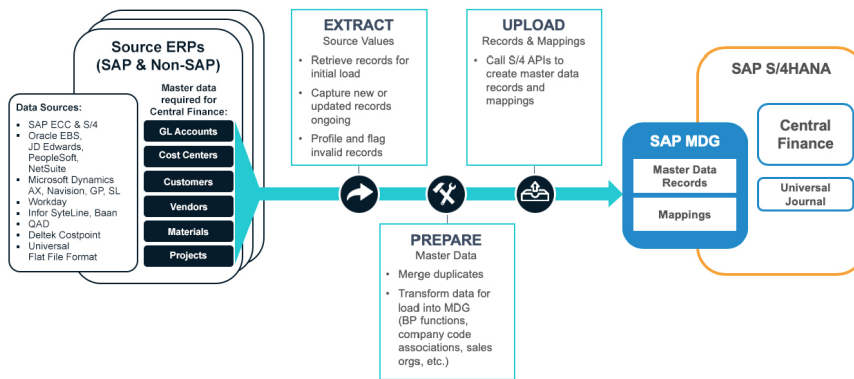

Enable Fast, Low-Cost, Low-Risk Implementation of SAP S/4HANA Central Finance

- ✓ Interface data from multiple source systems into SAP S/4HANA Central Finance.
- ✓ Empower centralized financial operations and deliver key insights and efficiencies.
- ✓ Automate master data integration tasks and harmonize data efficiently.
- ✓ Significantly decrease risk while accelerating SAP central finance deployments.

SAP Central Finance Data Harmonization by Magnitude for SAP S/4HANA is a comprehensive and proven Central Finance implementation accelerator to bring master data from SAP and non-SAP systems into Central Finance.

- Connect directly to SAP and non-SAP systems with pre-built extraction of source master data records
- Profile source master data to assist in identifying data remediation required before loading into Central Finance
- Harmonize master data from multiple sources using a sophisticated machine learning engine to produce golden records for Central Finance
- Convert customers and vendors to SAP business partners
- Map and enhances master data attributes required by Central Finance
- Load master data records and key mappings into MDG Foundation in Central Finance
- Synchronize new and updated source master data into Central Finance ongoing
